Atmospheres Introduces New Apeel by DiamondTome Microdermabrasion

We are very excited to offer this non-invasive skin resurfacing treatment. These effective treatments revitalize dull skin to improve skin texture, reduce large pores, erase fine lines and acne scars, reduce mild hyperpigmentation and age spots, and stimulate elastic tissue for healthier, firmer skin. The best part about these treatments is they are painless and there is no down time. DiamondTome uses natural diamond tip wands to polish the skin and remove dead skin cells. See and feel a difference after only one treatment. This treatment can be performed by itself, or in conjunction with another facial treatment, and it is very affordable. Call (970) 352-1776 ext. 115 for information or a complimentary consultation.

Phyto Pumpkin Enzyme Facial 60 minutes for \$80

This fruit acid/enzyme peel is a natural alternative to Alpha Hydroxy Acids. It acts as an exfoliation accelerator to replace old, dead skin cells with fresh new ones. Pumpkin is rich in beta carotene and ascorbic acid and is a retinoic acid substitute to repair skin and fight free radical damage. It contains protein building amino acids, co-enzymes and moisturizing fatty acids. Luxurious serums are used to fight free radical damage and help the skin heal itself. For normal/dry and aging skin, the Revitalizing Chocolate Mousse mask strengthens, revitalizes, nourishes and tones tired skin. For oily/acne skin, the Clarifying mask calms inflammation, absorbs excess oil, and eliminates impurities. This is a must have treatment this fall, and is only available thru November.
